POSTWAR ECONOMIC RECONSTRUCTION AND LESSONS FOR THE EAST TODAY

MIT Press Ltd, United States, 2003. Paperback. Book Condition: New. 231 x 160 mm. Language: English . Brand New Book. The breakup of the Soviet Union and the consequent extraordinary problems faced by Eastern European nations raise pressing economic questions. The case studies in this book examine significant parallels between the situation in Eastern Europe today and the issues facing Europe and Japan after World War II, offering insights on what kinds of policy actions will be most effective in this difficult period of reconstruction. The essays address such topics as the relative roles of government and the market; economic openness; industrial conversion from war to peacetime production; the roles of institutions, enterprises, the business community, and their work staffs; and external control of policy measures, of resources made available by the outside world, and of the general external environment. In their introductory chapter, the editors provide an overview that addresses the question of whether reconstruction can ever be managed smoothly.
