Taylor Francis Ltd, United Kingdom, 2004. Hardback. Book Condition: New. 236 x 160 mm. Language: English . Brand New Book. Villard s Legacy is in memory of the celebrated iconoclastic historian, Jean Gimpel, and represents a fundamental contribution to the new AVISTA series with Ashgate Publishing. AVISTA was the brainchild of Gimpel, a genius at making the right people meet to advance knowledge through a confluence of ideas drawn equally from the practical and scholarly domains. Sixteen papers and a tribute to Gimpel underscore this confluence of technology, science and art within medieval culture. Appropriately, six papers offer new interpretations on aspects of Villard de Honnecourt s portfolio, which Gimpel rightly recognized and promoted as a unique and precious record of pre-modern technology and culture. This thirteenth-century manuscript is now known to a wider public as the earliest testimony left by a master builder in Gothic Europe. Of particular significance, for the first time in eight centuries, a Compagnon du Devoir, initiated in the same oral tradition as Villard, opens the door to interpreting these remarkable drawings. Three papers address previously ignored aspects in the construction of French and English Gothic churches, from the engineering of aerodynamic spires, to the elastic materials of vault webbing, to the social conventions of formal design. Three other contributors treat essential elements of a broader technological culture, such as the horse harness and the minting of coins, as well as the applicability of medieval technology to the modern world, in particular third world countries, a project pioneered by Gimpel. Four papers conclude the volume by treating the sciences of measure and their cultural expression in medieval Europe, embracing both the concepts of space and time, geometry as a mathematical discipline, and the graphic expression of scientific data. These interdisciplinary studies are comprehensive in chronological...
