Book Condition: New. Publisher/Verlag: Springer Netherlands | 1 This is the second volume in the EMAN-Europe series of selected refereed papers on environmental management accounting drawn primarily from 2 papers presented at EMAN-Europe's annual conferences. Most of the papers in this volume were first presented at the 5th EMAN-Europe Annual Conference at the University of Gloucestershire, United Kingdom, on 11-12 February 2002. As several of the papers show, environmental management accounting (EMA) has continued to become increasingly established in both private-sector companies and in the public sector. As a network of researchers, business people, consultants and policy advisers interested in environmental management accounting as a tool of corporate environmental management, EMAN has continued to play an important role in this development by providing a medium through which those interested can contact others with similar interests, and by organising regular events for the dissemination and exchange of news and ideas. EMAN aims to provide a forum in which academics and practitioners can meet to exchange and share ideas and experiences, and this has guided the selection of these papers which include both academic papers, grounded in the relevant literature and with reference to theory as appropriate, and practitioners' reports on their own experiences in their workplaces. | 1 Adopting Environmental Management Accounting: EMA as a Value-adding Activity.- I Conceptual Developments and Tools of Ema.- 2 The Sustainability Balanced Scorecard as a Framework to Link Environmental Management Accounting with Strategic Management.- 3 Environmental Cost Accounting: Classifying and Comparing Selected Approaches.- 4 The Professionalisation of Environmental and Social Reporting - What has it Achieved.- II Policies and Initiatives for the Promotion of Ema.- 5 Austrian Pilot Projects on Environmental Management Accounting Following the UN DSD EMA Methodology.- 6 Two Governmental Initiatives on Environmental Management Accounting and Corporate Practices in Japan.- 7 The Danish Green Accounts: Experiences and Internal Effects.- 8 Environmental Management Accounting, Eco-Efficiency Profiles, and Effluent Charges for Costa Rican Coffee Mills.- III Developments in Ema Adoption in Practice.- 9...
