Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Freedom Through Limitation: Life Problem Series When I am weak, then am I strong. - Paul. The salutation by the hand of me Paul. Remember my bonds. - Closing words of letter to the Colossians. Some ten or fifteen years ago, when I first read Emerson s essay on Compensation, it made upon me a deep impression, though I did not then know that what is there stated by the writer is scientifically accurate. Plain and direct laws of the universe, such as those of gravity or hydrostatics, are not doubted by any one of ordinary intelligence, because their effects are so plainly to be seen, and cause and effect are immediately joined one to the other. The law of compensation equally with these is of God; and it must therefore be just as exactly true. More and more, as we gain either in faith or in knowledge, do we know this to be so; yet probably there is no other universal law so much doubted, as it touches and influences human life, as is this one. The reason for the wide-spread doubt is not hard to find. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
