The video-conferencing enhancement provides greater communication capabilities among offices and external partners. The system is used to conduct monthly program and staff meetings. SERVE has also increased the use of video-conferencing to conduct meetings with programs throughout the Southeast. We have upgraded our collaboration software to support the communication of our staff members, clients, and partners located in each of the six states. This system is available on SERVEs Intranet and Internet. This software is the primary discussion tool used by the states policy analysts in the region.
