This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

FILIPINO AMERICAN PSYCHOLOGY: A COLLECTION OF PERSONAL NARRATIVES (HARDBACK)

AUTHORHOUSE, United States, 2010. Hardback. Book Condition: New. 231 x 157 mm. Language: English . Brand New Book ***** Print on Demand *****.Filipino Americans are projected to become the largest Asian American population by 2010. As the second largest immigrant group in the country, there are approximately 3 million documented and undocumented Filipino Americans in the US. Filipino Americans are unique in many ways. They are the only ethnic group that has been categorized as Asian American, Pacific Islander, Hispanic, and even as their own separate ethnicity. Because of diverse phenotypes, they are often perceived as being Asian, Latino, multiracial, and others. And contrary to the Model Minority Myth, Filipino Americans have experienced several health, psychological, and educational disparities, including lower college graduation rates and higher levels of cardiovascular disease, diabetes, obesity, teen pregnancy, HIV/AIDS, substance abuse, depression, and suicide. Despite these disparaging statistics, Filipino Americans have made significant contributions to the US, ever since their first arrivals in October 1587- from their involvement in the United Farmworkers Movement to their roles in hip-hop culture and their presence in medicine, education, and the arts. However, Filipino Americans have also been referred to as the Forgotten Asian Americans because of their invisibility in mainstream media, academia, and politics. Filipino American Psychology: A Collection of Personal Narratives offers an intimate look at the lives of Filipino Americans through stories involving ethnic identity, colonial mentality, cultural conflicts, and experiences with gender, sexual orientation, and multiraciality. Writers courageously address how they cope with mental health issues- including depression, anxiety, post-traumatic stress, and suicide. Theories and concepts from the book s predecessor, Filipino American Psychology: A Handbook of Theory, Research,...
